

Download Elna Serger Threading Guide

An overlock is a kind of stitch that sews over the edge of one or two pieces of cloth for edging, hemming, or seaming. Usually an overlock sewing machine will cut the edges of the cloth as they are fed through (such machines being called "sergers" in North America), though some are made without cutters. The inclusion of automated cutters allows overlock machines to create finished seams easily ...Sergers & Overlocks Not familiar with sergers? View our understanding sergers guide here.. Serger sewing machines cut and finish the raw edges of the material you are sewing. Unlike a straight stitch machine, sergers (also called overlock machines) use loopers to make the stitch and have a set of knives similar to a pair of scissors to cut the fabric. I recently participated in a charity sewing event, and I brought my serger to use for the day. I was so amused by my fellow sewists' reactions to my cone bobbins pools of thread that I had to create a tutorial. View and Download ELNA 9600 "Haute Couture" instruction manual online.
