The aim of this document is to present a structured list of all the parameters involved in the geometric design of roads. The document also includes a discussion on the problems of highway geometrics and parameters, some notes on the main parameter. This page states that the criteria contained in this Roadway Design Manual are applicable to all classes of highways from freeways to two-lane roads. This page gives a brief description of each section by roadway classification. The page also discusses how the manual is formatted and gives a listing of external reference documents. A gravel road is a type of unpaved road surfaced with gravel that has been brought to the site from a quarry or stream bed. They are common in less-developed nations, and also in the rural areas of developed nations such as Canada and the United States. In New Zealand, and other Commonwealth countries, they may be known as 'metal roads'. They may be referred to as 'dirt roads' in common speech ...Page 1 STRIKE 800 OWNER'S MANUAL h i s u n motors .com...; Page 2 Owner Manual INTRODUCTION
