

# Download Tekla Structures 17 Manual

The new 2019 versions of Tekla software offers improvements and new features to boost productivity and create smoother workflows. With enhancements for drawing production, steel and rebar detailing, cast-in-place and precast concrete, structural engineering design and collaboration, Tekla is intended to make your work easier and faster. Use Organizer to view and create reports on model information based on what you select in the model. Organizer consists of two parts: Object Browser and categories. StruSoft AB is a Swedish innovative software development company with more than 30 years of experience in specialized software applications for the entire building industry. StruSoft's main software packages FEM-Design, WIN-Statik, PRE-Stress, IMPACT and VIP-Energy have been applied in analysis and design, precast industry, detailing and energy. Connection design according to the new AISC 360-16 (15th Ed.) Steel Manual has now been implemented in RISACONNECTION. To select this code for your design, simply choose either LRFD or ASD from the Solution tab within the Global Project Settings.
